

LOW SCORES AT THE TOP

James R. Mackay Was First
in Golf Last Week

WITH A NET SCORE OF 66

John T. Averill Stood Second with a
Net Score of 68½, and Frank Dal-
garno Was Third With a Score
of 74 Net.

Two very low scores were turned in
last week for the weekly tournament of
the Barre Golf club, the lowest, 66 net,
being that of James R. Mackay and the
next, 68½, by John T. Averill. Third
place honor went to Frank Dalgarno. The
scores were as follows:

Gross.	Handic.	Net.
James R. Mackay.....	88	66
J. T. Averill.....	12½	68½
F. Dalgarno.....	85	74
John Reid.....	85	74½
C. A. Dodge.....	83	75
Geo. Mackay.....	100	75
O. J. L. Matthews.....	89	76½
Wm. Smith.....	99	77
I. R. Hutchinson.....	86	77½
Jas. Mackay.....	90	78
E. W. Nichols.....	90	78
Jas. Reid.....	92	79
H. Brown.....	94	79
H. G. Woodruff.....	104	79
A. M. Mylne.....	99	79½
Jas. Palmer.....	94	80
W. W. Russell.....	101	81
J. A. Leslie.....	103	81
Wm. Shaw.....	104	82
J. A. Smith.....	107	82
Jas. Rhind.....	107	84
Geo. Thilen.....	101	85

Yesterday's American League Scores.

At Boston, Boston 6, Philadelphia 5
(1st game); Boston 4, Philadelphia 1
(2d game).

At New York, Washington 6, New
York 4 (1st game); New York 3, Wash-
ington 2 (2d game).

At St. Louis, Detroit 2, St. Louis 0.
Cleveland-Chicago game postponed on
account of rain.

NEW PERIL FOR NATIONAL GAME
Better Scores Home Run when Balloon
Hooks Up a Fielder.

St. Louis, Mo., June 22.—John Berry,
winner of the recent Indianapolis bal-
loon race, and Helms, who ascended
here Sunday in the balloon Melsa, re-
turned yesterday from Wrights, Ill.,
where they landed after an exciting trip
and after breaking up a ball game.

At the start their course was to the
northwest, but a change in wind sent
them northeastward toward a bank of
electrically charged clouds. They es-
caped this danger by rising to a height
of 10,000 feet.

Shortly before landing the draw rope
howled over a base ball player as he was
about to make a catch. The batsman
scored and the crowd chased the balloon
triers to catch the draw rope, which the
aeronauts were forced to haul up into the
basket.

OCEAN RECORD AGAIN BROKEN.

Mauretania Makes Fast Run in 4 Days,
17 Hours, 11 Minutes.

Queenstown, June 22.—The Cunard
steamer Mauretania has clipped another
fifty minutes off the best previous east-
ward record, which is also her own.
She accomplished the run from New
York in 4 days, 17 hours and 11 minutes.
She arrived off Daunt's Rock at eleven
minutes past ten yesterday morning.
The total run was 2,933 knots, made at
an average speed of 25.88 knots an hour.
The best previous average speed was
25.70 knots an hour. The day's run
was 392, 606, 609, 602 and 624.

Syrup of Figs
and
Elixir of Senna
Cleanses the System
Effectually.
Dispels colds and Headaches
due to Constipation.
Acts naturally, acts truly as

and are relieved and cured by
this medicine. It is sold by all druggists,
and sent through the mail on receipt of price by
C. L. MOORE CO., Mfg. Chemists, Lowell, Mass.
It Made by Heart's Own.

SHIPBUILDING TRUST SUIT.

There Are Many Well Known Men as
Defendants.

Saratoga, N. Y., June 22.—Charles H.
Kavanaugh's suit against former direc-
tors of the Trust Company of the Re-
public of New York, now the Common-
wealth Trust company, demanding an ac-
counting to show how much was lost to
the trust company because of the
financing of the United States Shipbuild-
ing company and to compel the directors
to restore the money, was resumed yester-
day before Supreme Court Justice
Van Kirk. The defendants in the case
include Perry Belmont, Stuyvesant Fish,
George J. Gould, Herbert L. Satterlee and
others. Among the attorneys present
interested in the case was D. Carey Har-
rick of Albany, who represents Stuyvesant
Fish. Senator Edgar T. Brackett con-
ducted the plaintiff's case.

Daniel Le Roy Dresser, who was presi-
dent of the Trust Company of the Re-
public at the time funds of the company
are alleged to have been illegally in-
vested in securities of the shipbuilding
company, was present yesterday and his
testimony on behalf of the plaintiff to-
gether with that of a large number of
other witnesses who have been subpoe-
ned on both sides, is expected to throw
considerable light on the methods by
which the shipbuilding trust was financ-
ed. The plaintiff alleges that the di-
rectors were negligent and that had they
performed their duty the alleged losses
would not have been incurred.

Mr. Kavanaugh, a manufacturer of
Waterford, N. Y., who is suing on behalf
of himself and other stockholders of the
Commonwealth Trust company, was the
first witness called. He testified con-
cerning his purchase of stock in the
Trust Company of the Republic. Will-
iam H. Harkness, assistant secretary of
the Commonwealth Trust company, and
Judge James R. Dill of the court of
errors and appeals of New Jersey, who
in 1904 was counsel to the Common-
wealth Trust company, were sworn in
showing that Mr. Kavanaugh has asked the
trust company to institute an action for
the recovery of the alleged losses and
that the company had refused to begin
such an action.

SEWAGE DISINFECTION.

The Modern Treatment of an Old Prob-
lem.

The problem of purifying sewage so
that it no longer transforms the river
into which it is discharged into open sew-
ers has been so far solved that open sew-
ers need no longer be disgusting to the
senses and dangerous to the health of
people living along them. The task of
destroying disease-breeding bacteria
in the sewage and once more making the
rivers available for drinking water has
not yet been worked out on a prac-
tical basis, but investigations recently
made by the United States geological
survey in co-operation with the Massa-
chusetts Institute of Technology and local
authorities at Boston, at Baltimore, and
at Red Bank, N. J., show that this end,
too, may be attained at a reasonable cost.

The essential agents of sewage purifi-
cation are provided and employed by na-
ture, and sewage purification as prac-
ticed today is but the intensive applica-
tion of these natural processes. The im-
provements that have been made have
involved the discovery or application of
new principles, but have merely in-
creased the working efficiency of the nat-
ural agencies. From the old-time sewage
irrigation field, with its maximum ca-
pacity of perhaps 10,000 gallons an acre
in twenty-four hours, to the present-day
trickling filter capable of dealing with
two or three million gallons an acre a
day, improvement has been steady.

The old-time methods, however, really
destroyed the polluting substances, while
the modern sewage filter does not. The
liquid flowing from these filters looks
to the untrained eye like the original
sewage. There is almost as much organic
matter in it as in the raw sewage, and
sometimes more. Its nature, however,
has been changed; the organic matter,
though not burned up, has been charred
or partly oxidized, and this charring
has been sufficient to rob it of its foul-
ness. In other words, its chemical com-
position has been so altered that it can
no longer undergo rapid putrefaction and
cause disease.

The water, however, still needs filtra-
tion to make it fit to drink. Moreover,
it may and in many cases does contain
minute oyster beds, thus spreading disease
and tending to ruin a great industry.

It has not yet been decided upon
whom the responsibility rests for keep-
ing the rivers clean, but the consensus
of competent opinion requires that if
sewage is discharged within the region
of important shellfish beds or into a
stream which is used as a source of do-
mestic water supply without filtration,
such sewage shall at least be free from
disease-bearing germs.

**Results of Geological Survey Experi-
ments.**

The geological survey experiments,
which are set forth by Earle B. Phelps
in Water-supply Paper 229, just issued,
show that the application of a small
amount of available chlorine in the form
of bleaching powder to the ordinary
"purified" sewage effects satisfactory dis-
infection. The removal of bacteria by
this means averages over 95 per cent.,
making the removal for the whole purifi-
cation process 98 to 99 per cent. of the
number in the crude sewage. The cost
of disinfection ranges from \$1 to \$1.50
per million of sewage, depending
chiefly on the size of the plant. Five
parts per million of chlorine probably re-
presents the maximum amount required
for the treatment of trickling-filter efflu-
ents of poorer quality. The results ob-
tained with the amounts of disinfectant
specified do not, of course, amount to
complete sterilization, but they may
reasonably be called "practical disinfection."
Considerable additional cost is re-
quired to improve them but slightly. Mr.
Phelps' paper may be obtained, free of
cost, from the Director, United States
Geological Survey, Washington, D. C.

NORTH MONTPELIER.

The examinations of applicants for
free tuition in second schools will be held
at Morse, Four Corners, East Montpelier,
and East Montpelier Center schools, on
Thursday and Friday, June 24 and 25.

MANY CASES DISPOSED OF

In Orange County Court up
to Present Time

SESSION MAY LAST LONG

Jurors Were Sent Home Saturday Morn-
ing After Being Paid Off—The
Cases Tried Up to
Date.

Chelsea, June 22.—The jurors in Or-
ange county court, with the exception of
those from Chelsea, were paid off last
Saturday morning and were allowed to
go home and remain unless called for fur-
ther criminal work. When the court
took its recess Saturday morning, it was
not known how many more criminal
cases would be tried. If there are two
or three more as it looks as though there
might be, the present term will not com-
plete its work before the first week in
July, since, after the criminal docket is
disposed of, there are several cases on
the court calendar and a number of di-
vorce cases to be heard, some of which
are to be contested.

The second case tried by jury was an
action in assumpsit, the parties being
George B. Foster vs. International Tooth-
pick company, apt. in which a verdict
was rendered for the plaintiff to recover
the sum of \$124.30, and his costs. Frank
S. Williams of Bradford was counsel for
the plaintiff and W. S. Franklin of Bos-
ton, Mass., was counsel and only wit-
ness for the defendant company. In the
case of the Abenque Machine Works
vs. Walter W. Perkins, which was an
action in assumpsit, the parties with
their counsel, D. S. Conant and Darling
& Wilson, respectively, got lined up
ready for trial, when negotiations were
entered into and a settlement effected.

Six other cases on the jury calendar
were also settled and discontinued, when
it commenced to look as though the June
term would be of short duration, but the
parties in the case of Slack vs. Briggs, an
action for false warranty, did not fall
in line with the settlement idea, and put
their case "upon the country for trial." In
this case, the plaintiff sought to re-
cover the sum of five hundred dollars,
alleging as the basis of his claim that a
lot of fifteen cows purchased from the
defendant last fall at fifty dollars each
did not prove as represented. The jury
found for the plaintiff to recover the sum
of \$83 and his costs. D. S. Conant and
R. M. Harvey for plaintiff and Darling &
Wilson for defendant.

The balance of the civil cases set for
trial by jury were disposed of by con-
tinuance or being issued to the court, and
being thus disposed of the criminal dock-
et was next in order, and a real trial
was entered in each of the following
cases, State vs. Angus Campbell, State
vs. Wm. L. Godfrey, State vs. H. J.
Bonnett.

In the case of State vs. Nicolas Delizio,
who was charged with assault with in-
tent to rape, the respondent pleaded
guilty to simple assault, which plea the
state accepted, and he was sentenced to
not less than five months nor more than
eight months at hard labor in the county
jail. M. M. Wilson of Randolph was
counsel for the respondent. In the case
of State vs. George F. Bell of Verriore,
who was charged with selling intoxicat-
ing liquor, the respondent pleaded guilty
and was sentenced to the county jail
for a term of not less than four months
nor more than six months, which sen-
tence was stayed and the respondent
placed in charge of the county probation
officer. W. H. Sprague was counsel for
the respondent.

In State vs. Ralph Koser of Corinth,
who was charged with tearing down and
destroying a telephone line, respondent
pleaded guilty and was sentenced to the
county jail for a term of not less than
three months and one-half months nor
more than three months, to be confined at
hard labor. David S. Conant of Bradford
was counsel for the respondent.

Following the disposition of these cases
came the trial of State vs. Anna Clark
of Randolph, who was charged with hav-
ing committed the crime of adultery.
This case occupied the attention of the
court for two days. Attorneys D. S. Conant
and R. M. Harvey, counsel for the
respondent, leaving no stone unturned in
their endeavor to evade a conviction, but
the evidence was too strong.

WOMAN, LOVELY WOMAN

But Alas, Without Beautiful Hair No
Woman Can Be Handsome.

A great many newspapers and maga-
zines are printing pages on how a wo-
man can be beautiful and keep beau-
tiful.

The women of Paris are, as a rule,
beautiful and keep beautiful, and a care-
ful American observer who has traveled
much claims that their beauty is due to
their knowledge of how to keep their
hair beautiful, which they do by using
a superior hair tonic.

Many American women are as wise
as their French sisters, and that is why
Parisian Sage, the quick acting and
greatest of all hair restorers and tonics,
is now having such a tremendous sale
in America.

We ask every woman reader of this
paper to give this marvelous hair beau-
tifier a thorough trial, and we gladly
make them this liberal offer.

Get a large 50 cent bottle from The
Red Cross Pharmacy today, the largest
for the money in America. Use it as
directed for two weeks. If at the end
of that time you are not satisfied with
the results, say so to The Red Cross
Pharmacy and they will give you your
money back.

Beesides being a delightful and invig-
orating hair dressing, Parisian Sage will
cure dandruff, stop falling hair, and
fishing of the scalp, or money back.
The girl with the Auburn hair is on
every package, and leading druggists in
every town sell Parisian Sage.

SMARTNESS and DIGNITY!

Hart Schaffner & Marx

PEARY SHOULD BE AT THE POLE NOW

Friends Say He Has Accomplished His
Mission If He Has Been Free from
Misadventure.

Washington, June 22.—Friends in this
city of Commander Robert Edwin Peary,
the explorer, say that Peary by this
time should have reached the North Pole,
if all went well.

No news has been received from Peary
since he left Etah, Greenland, Aug. 17,
1908, in the Roosevelt, for a dash as
fast as that vessel would carry him be-
fore being frozen in. He hoped to win-
ter the Roosevelt off the north coast
of Ellesmere land, in about latitude 82
degrees 40 minutes, 420 miles from the
pole. From this point, the sled journey
was to begin early in February, with
an expedition of twenty-five sleds,
each drawn by six dogs, with an Eskimo
driver.

On his last expedition Commander
Peary succeeded in getting within 174
miles of the pole, making the farthest
north record yet attained—latitude 87
degrees 6 minutes.

SUGAR INQUIRY BEGUN.

The Federal Grand Jury Is Now at Its
Work.

New York, June 22.—Investigation of
the conduct of the American Sugar Re-
fining company in its dealings with the
Pennsylvania Sugar Refining company
was begun yesterday by the federal
grand jury under the direction of As-
sistant District Attorney Criss. It was
the closing of the Pennsylvania com-
pany's refinery after the American Sugar
Refining company had secured control of
it by a loan that resulted in a recent
suit of \$200,000, which was settled by
the American company after much evi-
dence was taken. The books of both
companies were taken before the jury
yesterday. Charles R. Heike, secretary
of the American company, appearing
with those of that company. J. De F.
Junkin, counsel for receiver Earle of the
Pennsylvania company, was in town yes-
terday and in waiting to go over the
books of that company if his presence
before the jury was desired. The jury
devoted the day to the consideration of
the books.

TO TAKE UP HARBOR WORK.

Move in Relation to Left-Over Bal-
ances.

Washington, June 22.—Senator Hale
yesterday greatly surprised his colleague
Senator Frye, chairman of the commit-
tee on commerce, by moving recommenda-
tion of the joint resolution releasing
from a prohibition of the sundry civil
act certain unexpected balances of the
river and harbor appropriation. Under
the resolution passed, work on about a
million and a half dollars' worth of work
must stop July 1. The balances include
\$130,000 for Boston harbor, \$2,350 for
Essex river, \$8,270 for Plymouth harbor,
and several important Maine projects.
Heretofore, these have been considered
as perpetual appropriations.

WHEAT STRONG.

News at Home and Abroad Bullish Yes-
terday.

Chicago, June 22.—Wheat had a strong
and healthy opening yesterday. The news
both at home and abroad was bullish,
July wheat sold between \$1.13½ and
\$1.13¾, during the morning, holding
firm around \$1.13½. September sold
\$1.07½, off to \$1.06½, and rallied to
\$1.07½. December sold \$1.06½, reacted
to \$1.05½, and had quick rally to
\$1.06½.

WHAT IS HEM-ROID?

A Tablet, Taken Internally, That Cures
Piles.

Piles (hemorrhoids) are getting more
common every day, because we live un-
naturally, overworking, talking
little exercise, gradually causing a
deadeness of veins and tissues in the
lower bowel. Blood stagnation is the
cause of piles, and a condition that can't
be permanently cured with ointments.
Leonhardt's Hem-Roid is the only
internal tablet remedy that cures piles
by freeing the circulation. Sold under
guarantee at the Red Cross Pharmacy.
Price \$1. Dr. Leonhardt Co., Station 15,
Buffalo, N. Y.

It don't matter what kind of a game you're
going to play in, even if you're only a specta-
tor, the clothes you wear will help a whole lot
towards winning.

That's the kind of clothes you get here—be-
cause they have style, a smartness in appear-
ance, yet dignified, perfectly tailored and fit
correctly.

You are not limited to a small selection,
either, as Hart Schaffner & Marx have made
these goods in such a very great variety of
models that we can cater to men of all ages
and give them what they want.

Let us show you the new Spring stunning
models of Suits and Overcoats we have as low
as \$10.

The Hart Schaffner & Marx models for a little
more money but worth even more than you'll
have to pay.

Moore & Owens,
122 North Main Street, Barre, Vermont.

got it before the House under a suspen-
sion of the rules.

After further opposition by Mr. Fitz-
gerald and an ineffectual effort by Mr.
Tawney to amend the resolution, the
vote was taken resulting, says, 1321 yeas
28. This being 18 short of a quorum,
Mr. Livingston directed attention to
that fact and the roll was called.

The roll resulted, ayes, 163 yeas, 27;
present 13 more than a quorum. The
vote had the effect of suspending the
rules and adopting the resolution, the
necessary two thirds having answered
in the affirmative.

After having slept for several months
in committee, the bill providing for the
taking of the 13th census was called up
in the House yesterday by Mr. Cram-
meyer, Indiana. When it was discover-
ed that a quorum was present, the Re-
publican leaders quickly decided to have
the measure considered at once.

Immediately upon the bill being laid
before the House the old discussion as
to whether the rule of geographical ap-
portionment in the matter of appoint-
ments should apply, was revived and a
lively discussion followed.

KELLOGG WANTS SEAT IN SENATE

Report Government's Trust Prosecutor Is
After Senator Clapp's Place.

Washington, June 22.—Word reached
here from Minnesota yesterday that
Frank R. Kellogg, government counsel
in the suit to enjoin the Standard Oil
company, had practically announced
himself a candidate for the United States
Senate to succeed Moses E. Clapp. Mr.
Kellogg, it develops, has been writing to
the members of the Minnesota legisla-
ture saying he intended to devote the
rest of his time to public service and
asking to what extent his candidacy
would receive support. In Minnesota,
these letters are taken as the equivalent
to a public announcement that Mr. Kel-
logg is out in quest of Senator Clapp's
shoes.

The contest between the two men
promises to attract nation-wide interest.
Senator Clapp has lately strengthened
himself at home by his fight in the Sen-
ate for downward revision.

Kellogg is charged by his opponents
with having been of counsel for the
United States steel corporation in Min-
nesota, and they will make use of this
to discount the credit he has been given
for fighting Standard Oil.

Weston Leaves Ogden for Coast.

Ogden, Utah, June 22.—Edward Pay-
son Weston, trans-continental pedestri-
an, left Ogden shortly after midnight,
traveling westward along the Southern
Pacific right of way.

ROGERS' WORK FOR NEGRO.

Plans Carried Out By Booker Wash-
ington

Norfolk, Va., June 22.—Booker T.
Washington, the negro educator, who
will leave Norfolk tomorrow on a special
train for a tour of the Virginia railway
in connection of plans of the late Henry
H. Rogers to have Dr. Washington in-
vestigate the condition of the negro race
along the line of the Virginia property,
spoke yesterday at Suffolk, and tonight
will address an audience in one of the
theatres in this city. Yesterday Dr.
Washington spoke at Newport News,
and last night he spoke at the Hampton
normal school.

THE DOCTOR'S FIRST QUESTION

"How are your bowels?" This is generally the first question the
doctor asks. He knows what a sluggish liver means. He knows
that headaches, bilious attacks, indigestion, impure blood, are
often promptly relieved by a good liver pill. Ask him if he
approves of Ayer's Pills. Then follow his advice.

**A SPECIAL LINE DOES NOT CHANGE ITS
NUMBER.**

VERMONT TELEPHONE & TELEGRAPH COMPANY.

Full Line of Dairy and Creamery Goods

While building and moving to our new sanitary
plant, which is said to be the most up-to-date one of its
kind in Vermont, we have been somewhat handicapped,
but from this time on we expect to have constantly on
hand a full stock of goods in our line, including plenty
of the BEST MILK and CREAM produced, Butter
made in our own plant, fresh Eggs and finest Cream,
also Sweet Skimmed Milk, Sour Milk or Butter Milk.
We shall endeavor to make it profitable to you as well
as ourselves for you to trade here.

L. B. Dodge, Prop'r.

300 North Main Street, Barre, Vermont. Tel. 233-3.
